PREFACE

The Operations and Statistical Analysis Section of Management Services, Texas Department of Corrections, presents the sixth consecutive Fiscal Year Statistical Report. This report is designed to present a statistical summary of the demographic information on inmates who were admitted to, confined in, and released from the Texas Department of Corrections during Fiscal Year 1982. The time period covered is September 1, 1981 through August 31, 1982.

The Texas Department of Corrections Electronic Data Processing Division was the primary source of data for this document. Other sources within the Texas Department of Corrections were the Windham School System, the Division of Continuing Education, and the State Funds Department of the Business Division. Additional data were provided by the Texas Department of Public Safety.

This report provides management with data to assist in the effective and efficient operation of the Department. In addition, it is a resource document for criminal justice research and provides information to the public.

TEXAS DEPARTMENT OF CORRECTIONS

1982

FISCAL YEAR STATISTICAL REPORT

INTRODUCTION

INTRODUCTION

The data contained in this document are primarily of a descriptive nature and are therefore self-explanatory. However, the following list of pertinent definitions along with a brief narative, will facilitate the reader's understanding of the Fiscal Year Statistical Report.

DEFINITIONS OF TERMS

Inmates Admitted: The admissions section represents actual persons received by the Department: it excludes admission transactions involving parole violators, mandatory supervision violators, conditional pardon violators, shock probation violators, and paperwork only. This section contains two actual receives categories: admissions and admissions voluntarily surrendered.

Inmates Discharged: The inmates discharged section represents actual persons discharged by the Department: it excludes all paperwork-only discharges. This category contains three actual discharge categories: discharges--expiration of sentence, discharges--hold, and discharges--court order.

Inmates Paroled: Inmates paroled are actual persons paroled from the Department; all "paperwork only" paroles are excluded. Three categories are represented: parole, parole--hold, and parole--reinstatement.

Inmates on Hand: The inmates on hand section represents the actual number of inmates physically present at the end of any stated workday. For the purpose of this report, on-hand categories are for August 31, 1982.

SMSA: The SMSA is a standard metropolitan statistical area generally made up of a core city with a population of 50,000 or more inhabitants and the surrounding county or counties which share certain metropolitan characteristics.

Mandatory Supervision Discharged: This section includes only those felons whose offenses occurred on or after August 29, 1977; this is the effective date of an amendment to Article 42.12 of the Texas Code of Criminal Procedure to include mandatory supervision of all dischargees of the Texas Department of Corrections. Before the amendment only parolees were under supervision after leaving the prison. The period of mandatory supervision is equivalent to the maximum sentence length less calendar time actually served on the sentence.

Parole Violators: This section includes all inmates who were returned to the Texas Department of Corrections as a result of violating the conditions of their parole.

Mandatory Supervision Violators: This section includes all inmates who have been returned to the Texas Department of Corrections as a result of violating the conditions of their release under Mandatory Supervision.

Shock Probation: This category has not been included due to the lack of adequate available data. This is the result of the fact that TDC is not always notified when an inmate on bench warrant has been released on shock probation. This type of sentencing and discharging was introduced by the 65th Texas Legislature. It granted authority to the judges to sentence offenders to TDC for a period of no more than 120 days and no less than 60. Only first offenders who are sentenced to 10 years or less and who committed crimes other than robbery, criminal homicide or rape are affected by this law (ART. 42,12, Sec. 3e). Once released from TDC, they are under supervision of a probation officer.

POPULATION TRENDS AND CHARACTERISTICS

On August 31, 1982, the TDC inmate population was 34,393. One year earlier it was 30,315, thus, TDC experienced an increase in population of 13.45 percent during the 1982 fiscal year.

The increase in population during the 1982 fiscal year can be partially explained by the following facts concerning inmate population flow:

1. Admissions - During the 1982 fiscal year there were 15,539 inmates admitted to TDC with new sentences, an increase of 15.49 percent over the 13,455 inmates admitted during the 1981 fiscal year.

2. Dischargees - There was a decrease of 23.60 percent in the number of inmates discharged from

fiscal year 1982 over fiscal year 1981. This translates into 455 fewer inmates discharged in 1982; there were 1,928 discharged in 1981 and 1,473 discharged in 1982. The decrease in discharges is a result of the implementation of the Mandatory Supervision Release Law. The number of people released through discharge will continue to decrease as the number of people released under Mandatory Supervision increases.

3. Mandatory Supervision - The number of inmates released under Mandatory Supervision during fiscal year 1982 increased to 4,538. This was an increase of 36.24 percent above the 3,331 inmates released under Mandatory Supervision during fiscal year 1981. As of August 31, 1982, 23,225 inmates or 67.53 percent of the on-hand population had been admitted with new convictiors since the Mandatory Supervision Law became effective August 29, 1977. This compares to 18,294 inmates or 60.35 percent of the on-hand population as of August 31, 1981.

4. Parolees - During the 1982 fiscal year there were 7,453 inmates paroled. This represents a slight decrease of 12 inmates from the 1981 fiscal year when 7,465 inmates were paroled.

5. Mandatory Supervision Violators - The number of inmates returned to TDC as Mandatory Supervision Violators increased significantly from 492 during fiscal year 1981 to 863 during fiscal year 1982. This increase is, at least, partially explained in the number of individuals who comprised the population at risk. That is, those people who had been released under Mandatory Supervision, and, thus, were candidates for revocation due to violation of the terms of their release.

6. Parole Violators - During fiscal year 1982 the number of Parole Violators returned to TDC increased to 2,435 from 1,755 Parole Violators in fiscal year 1981. This was an increase of 38.75 percent.

SUMMARY

Analysis of the population flow reveals an increase of 19.97 percent in the total number of inmates admitted (new receives, parole violators, and mandatory supervision violators). However, this was not offset by the increase of 5.82 percent in the number of inmates released. This resulted in the significant increase in the number of inmates on hand.

The ethnic composition of those inmates who were incarcerated in TDC during the 1982 fiscal year was very similar to that of the 1981 fiscal as well as those of previous calendar years. For the on-hand population, August 31, 1982, the ethnic distribution was as follows: Blacks - 43.75 percent, Caucasians - 37.84 percent, and Mexican-Americans - 18.41 percent. On the same date in 1981, the distribution was: Blacks - 43.58 percent, Caucasians - 37.92 percent, and Mexican-Americans 18.50 percent. The similarity of ethnic distributions between the two years remained consistent for inmates admitted, discharged, paroled, and released under mandatory supervision.

There were no significant changes in the mean I.Q. scores for fiscal year 1982 compared with fiscal year 1981. The mean I.Q. score for the inmates on hand during fiscal year 1982 was 86.73.

There were no significant changes in the mean sentence length for the inmates on hand August 31, 1982 (20.35 years) when compared to the mean sentence length for the inmates on hand August 31, 1981 (20.67 years).

With a mean age of 29.74 in fiscal year 1982, there was no significant change from the mean age of 29.67 in fiscal year 1981.

The distribution of offenses committed by inmates incarcerated during the 1982 fiscal year was in all categories of on hand, discharges, paroles and admitted, very similar to that of the 1981

year. The crimes for which the majority of TDC inmates were incarcerated were, in rank order: burglary, robbery, and homicide.

CONCLUSION

In summary, the population characteristics of those inmates who were incarcerated in TDC during the 1982 fiscal year showed no conspicuous differences from those of 1981 and other years.

It should be emphasized that this document is presented as a descriptive study of the demographic characteristics of TDC's inmate population. The reader should, therefore, exercise caution when attempting to infer from the described data to cause-effect relationships.

*Based upon place of conviction.
**Data Obtained from Texas Department of Public Safety.
***On hand as of 8-31-82.

TABLE 1E: WINDHAM SCHOOL DISTRICT*

Average Monthly Enrollment for 1981-1982 School Year		12,765
Academic	10,727	
Vocational (Full Time)	1,199	
Special Education	839	
Number receiving High School and High School Equivalency Diplomas since 1970		20,637
Vocational Education Enrollment for 1980-1982 School Year		3,269
Number Receiving Vocational Certificates since 1970		7,496
Special Education Enrollment for 1981-1982 School Year (Total)**		1,530

*As of August 31, 1982
**This includes all inmates who were enrolled in this program at any given time within the year.

TABLE 1F: COLLEGE PROGRAMS*

Junior College Academic Enrollment	8,233
Number Receiving AA Degree since 1967	1,791
Senior College Enrollment	1,035
Number Receiving BA Degree since 1974	151
Vocational Education Enrollment	914
Number Receiving Vocational Certificates since 1967	7,136
Number enrolled in Apprenticeship and Training Program	658
Number Receiving Certificates of Completion in Apprenticeship and Training Program since 1977	11

* As of August 31, 1982

TABLE 1G: SUMMARY OF CENTRAL TENDENCIES

Inmates On Hand	Mean	Standard Deviation	Mode
ALL			
INTELLIGENCE QUOTIENT SCORE *	86.73	13.68	80 to 89
Educational Achievement**	6.3	1.7	7.0 to 7.9
